INDEX TO VOLUME XXXI

1949

SUBJECTS

(Due to duplication in page numbers, those from the February, 1949 PROCEEDINGS issue are indicated by a p following the number.)

Acreage limitation in Federal irrigation projects with particular reference to the Central Valley Project of California, 976
  Discussion, 982, 983
Actuarial Structures for Crop Insurance, 418
Adaptation of the farm capital structure to uncertainty, 76
Aggregative theories, implications of for agricultural economists, 851
Agricultural Act of 1948, 227p
Agricultural employment and wage rates, estimates of, 233
Agriculture in a stabilized economy, 201p
Agricultural labor, seasonal, bilateral monopoly, 101
Agricultural marketing research at the University of Chicago, 1213
Agricultural Policy, current trends, 800
  Comments, 806
Agricultural policy, 213p
  Discussion, 224p
Agricultural production, measurement of, 213
Analysis of the economy of use of farm labor in the Corn Belt, 374p
Animal fats and oils, situation and outlook, 331p

Balanced farming, the Missouri Plan, 870
Basic economic and welfare aspects of farm technological advance, 293
Bilateral monopoly, with special reference to seasonal agricultural labor, 101
Brannan plan and farm adjustment opportunities in the cotton South, 487
Brannan's farm program and Great Plains agriculture, 497

Canada, experience with provincial marketing schemes, 610
  Federal marketing and price support legislation in, 594
  Agricultural price problems and policies in, 581
  Canadian agricultural manpower problems, 385p
Capital structure of the farm, adaptation to uncertainty, 76
Capital-labor substitution in cotton farming, 370p
Census, 1950, of Agriculture, plans for, 1284
  Discussion, 1293, 1295, 1296
Coarse grains, proposal to market through Canadian Wheat Board, 643
Coming readjustments in agriculture, domestic phases, 1
  Discussion, 16
  International phase, 19
Conservation, western range land use and problems, 985
  Discussion, 994
  What John Smith needs to know about the benefits and costs of soil conservation, 651p
  Methods of evaluating soil conservation measures, 655p
  Interregional economic and social aspects of an objective evaluation of soil conservation, 660p
  Cooperating in objective soil conservation research, 664p
Cooperatives
  Unsettled questions relating to agricultural cooperatives, 567p, 577p
    Discussion, 574p
  Membership and public relations, 581p
  Rural producing, status and possibilities of, 697
  Integrating economic and legal thought on, 891, 908
    Discussion, 915
Comments on agricultural policy, 806
Corn Belt agriculture, high level support prices and, 509
Cotton mechanization: its probable influence on marketing, 410p
Cotton South, the Brannan plan and farm adjustment opportunities in, 487
Current status of marketing agreements for fruits and vegetables, 1228
Current trends in agricultural policy, 800

Department of Agriculture, Mr. Hoover's, 201

  Integrating economic and legal thought on, 891, 908
    Discussion, 915
Comments on agricultural policy, 806
Corn Belt agriculture, high level support prices and, 509
Cotton mechanization: its probable influence on marketing, 410p
Cotton South, the Brannan plan and farm adjustment opportunities in, 487
Current status of marketing agreements for fruits and vegetables, 1228
Current trends in agricultural policy, 800

Department of Agriculture, Mr. Hoover's, 201

Developing and applying production functions in farm management, 1058
Development of basic data under the Research and Marketing Act, 1255
Discussion, 1262
Development of regional cotton marketing research, 1207
Development of wheat marketing policy in Canada, 627
Domestic phases, coming readjustments in agriculture, 1
Discussion, 16

ECA in action on the food and agriculture fronts, 317
Economics for the farmer, 880
Economics of minimum wages in relation to the agricultural labor market, 716
Egg production, input-output relationships in, 687
Egg project, midwestern, 1203
Estimates of agricultural employment and wage rates, 233
European recovery program and the American farmer, 519p
Discussion, 533p
Experience with provincial marketing schemes in Canada, 610
Experiment station research, social sciences, 253
Extension
Introduction to extension economics, 682p
Useful techniques in an extension program
In agricultural policy, 687p
In marketing, 690p
In farm management, 693p
In economic principles as applied to agriculture, 697p
Extension's role in getting results of marketing research translated into action, 1181, 1187

Farm business survival
Under extreme weather risks, 931
In areas of highly variable rainfall, 944
Discussion 951, 953
Farmer's price anticipations and the role of uncertainty in farm planning, 266
Farmer-worker relationships, 378p
Farm management
Production functions in, 1058
Measuring management factor, 1065
Multivariate analysis of data, 1073
Discussion, 1078
Farm Tenant Purchase program, ten years of, 469
Fats and oils
Outlook for world production and use, 325p
Situation and outlook, 331p
Discussion, 339p
Federal aid to irrigation, 965
Federal marketing and price support legislation in Canada, 594
Field of agricultural marketing research: objectives, definition, content, criteria, 444
Food and Agriculture Organization, food situation in Europe in relation to, 268p
Food production potentialities and problems, 251p
Discussion, 262p, 265p
Foreign trade policy—which way, 814
Further comment, 825, 832
Food situation in Europe in relation to work of FAO, 268p
Florida citrus agreement, 1237
Foreign food policy, issues in, 281p
Discussion, 290p
U. S. Foreign trade policy, a practical approach, 504p
Discussion, 516p
Fruit and vegetable marketing
National consumer preference study for potatoes, 620p
Quality factors affecting price of peaches on Benton Harbor market, 631p
North central states regional potato marketing project, 626p
Determining consumer preferences for sweet potatoes, 635p
Functional approach to effective farm labor utilization, 382p
Future, agriculture's, planner's view of, 29
Future of the Great Plains reappraised, 917

General price level, significance of, and related influences, to American agriculture, 779
Further comment, 788, 793
Graduate training
Can graduate training rise above institutional inbreeding of ideas, 537p
Specialization versus diversification in course work, 540p
Dual responsibility between the graduate assistant and the university, 542p
How to stimulate the graduate stu-

dent's interest in professional publication, 546p
Vocational goals of the graduate student, 549p
Great Plains agriculture and Brannan's farm program, 497
Great Plains, future reappraised, 917

High level support prices and Corn Belt agriculture, 509

Implications of aggregative theories for agricultural economists, 851
Implications of particular economics in agricultural economics methodology, 837
Importance of irrigation in the economy of the west, 955
Income, farm people
Measuring, 1102
Poverty within agriculture, 1112
Discussion, 1113, 1117, 1118
Input-output relationships in egg production, 687
Institutional changes affecting the agricultural outlook
Agriculture, 1121
Business, 1132
Labor, 1141
Insurance, crop, actuarial structures for, 418
Integrating economic and legal thought on agricultural cooperatives, 891, 908
Discussion, 915
International phases, coming readjustments in agriculture, 19
Irrigation, importance of in the economy of west, 955
Federal aid to, 965
Acreage limitation in federal projects with particular reference to the Central Valley Project of California, 976
Discussion, 982
Issues in American foreign food policy, 281p
Discussion, 290p

Japan, the race between food and population, 276

Labor, farm
Capital-labor substitution in cotton farming, 370p
Economy of use of farm labor in Corn Belt, 374p
Farmer-worker relationships, 378p
Functional approach to effective farm labor utilization, 382p
Canadian agricultural manpower problems, 385p
Labor's aims and what they mean to agriculture, 1141
Land reform and the transformation of agriculture in Hungary, 456
Land use policies in river basins
Political and other processes in formulating and implementing, 392p
Physical, economic and social factors, 401p
Role of the agricultural economist in formulation of, 405p
Logical foundations of economic research, 656

Mailed inquiry and methods of increasing returns, 1265
Discussion, 1273
Making price research useful, 1099
Maine potato marketing agreement and order, 1244
Marketing Agreements
Current status of, for fruits and vegetables, 1228
Florida citrus agreement, 1237
Maine potato marketing agreement, 1244
Marketing research
Research in cotton marketing, 415p
Agricultural marketing research, 553p
Discussion, 562–566p
Field of: objectives, definition, content, criteria, 444
Under the Research and Marketing Act, 1148
Administering market research: western problems, 1156
Northern problems, 1164
Discussion, 1172
Making marketing research useful, 1175
Extension's role in getting results of marketing research translated into action, 1181, 1187
Midwestern egg project, 1203
Development of regional cotton marketing research, 1207
Agricultural marketing research at the University of Chicago, 1213
Discussion, 1224
Elementary economic theory of marketing control, 1247
Development of basic data under the Research and Marketing Act, 1255
Discussion, 1262
Measurement of agricultural production, 213

Measuring the incomes of farm people, 1102
Measuring the management factor, 1065
Methods employed in an analysis of the spread between farm and consumer milk prices in New York city, 1194
Midwestern egg project, 1203
Milk prices, methods employed in an analysis of the spread between farm and consumer, in N. Y. city, 1194
Formula pricing of Class I milk under market orders, 420p, 528p, 434p.
Principles for pricing milk, 438p
Missouri plan, (balanced farming), 870
Missouri River development program, 1010
Economist's appraisal, 1017
Conservationist's appraisal, 1024
Engineer's appraisal, 1030
Monopoly, bilateral, with special reference to seasonal agricultural labor, 101
Mr. Hoover's Department of Agriculture, 201
Multivariate analysis of farm and ranch management data, 1073
Discussion, 1078

Needed new directions in agricultural price analysis, 1080
New directions for land economics research
West, 1035
Northeast, 1043
Discussion, 1054, 1055
North Dakota farm size trends, 588p

Objectives, effects and costs of feed grain storage, 998
Discussion, 1008
Our amazing population upsurge, 765
Outlook
Outlook for world fats and oils production and use, 325p
Use of outlook in an extension program, 640p
Outlook and farm management, 642p
Development and use of economic information and forecasts by industry, 646p

Particular economics, implications of in agricultural economics methodology, 837
Planner's view of agriculture's future, 29
Planning under the Research and Marketing Act of 1946; a study in the sociology of knowledge, 48
Plans for the 1950 Census of Agriculture, 1284
Discussion, 1293, 1295, 1296
Population, our amazing upsurge, 765
Race between food and, in Japan, 276
Population world trends, 237p
Poverty within agriculture, reflections on, 1112
Discussion, 1113, 1117, 1118
Presentation of agricultural data in the states, 309p
Principles for pricing market milk, 438p
Price analysis
Statistics and research in price analysis, 714p
Discussion, 722p
Agricultural, needed new directions, 1080
Statistical issues in price research, 1089
Using research, 1096
Research, making useful, 1099
Problem of farm business survival in areas of highly variable rainfall, 944
Discussion, 951, 953
Proposal to market coarse grains through the Canadian wheat board, 643

Readjustments in agriculture, coming; domestic phases, 1
Discussion, 16
International phase, 19
Recovering the investment in limestone, with particular reference to reimbursement of vacating tenants, 116
Reflections on poverty within agriculture, 1112
Discussion, 1113, 1117, 1118
Research, land economics, new directions for,
West, 1035
Northeast, 1043
Discussion, 1054, 1055
Research, economic, logical foundations of, 656
Research and Marketing Act of 1946
Administrative problems and policies, 476p
State and federal relations, 486p
Discussion, 498p, 501p
Planning under, a study in the sociology of knowledge, 48
Marketing research under, 1148
Administering marketing research: western problems, 1156
Northern problems, 1164
Discussion, 1172
Development of basic data under, 1255
Research methods in public policy, 700p
Discussion, 711p
Research into the problems involved in

marketing slaughter livestock by carcass weight and grade, 343p
Discussion, 361p, 364p, 367p
Risks in agricultural lending, 602p
Discussion, 611p
Rural health and the Truman plan, 391

Seasonal agricultural labor, bilateral monopoly, 101
Significance of the general price level and related influences to American agriculture, 779
Further comment, 788, 793
Size of farm
South, 582p
North Dakota, 588p
Should all farms be large, 592p
Northeast, 596p
Midwest, 599p
Social sciences in experiment station research, 253
Sociology of knowledge, a study in planning under the Research and Marketing Act of 1946, 48
Some further world trade problems, a review of Professor Jesness' paper, 825
Specialization versus diversification in course work, 540p
State frontiers in agricultural statistics, 293p
Discussion, 304p
Statistical issues in price research, 1089
Status and possibilities of rural producing cooperatives, 697
Storage, feed grain, objectives, effects and costs, 998
Discussion, 1008
Surveys
Winter storm livestock loss surveys in Wyoming, 1276

Taxation, analyzing the tax load of agriculture, 668p
Discussion, 678p, 680p
Teaching methods
Coordinating functional and descriptive material in teaching marketing, 725p
Place of lectures, recitations and laboratory work in presenting introductory marketing, 729p
Utilization of illustrative material and other aids in teaching marketing, 732p
Technological advance, farm, basic economic and welfare aspects of, 293
Technological changes, effects on cost reduction, 442p
Northeast agriculture, 445p
Midwest, 448p
West, 451p
South, 454p
Tenants, reimbursement of, recovering investment in limestone, 116
Ten years of the Farm Tenant Purchase Program, 469
Theory
Definition and Purpose, 409
Mailed inquiry and methods of increasing returns, 1265
Discussion 1273
Elementary economic, of marketing control, 1247
Truman plan, rural health and, 391

Uncertainty, adaptation of capital structure of farm to, 76
Role of, and farmer's price anticipations in farm planning, 266
Use of economics in farming, 863
Discussion, 887, 889
Using price research, 1096

Western range land use and conservation problems, 985
Discussion, 994
Wheat board, proposal to market coarse grains through, in Canada, 643
Wheat marketing policy, development of, in Canada, 627
Winter storm livestock loss surveys in Wyoming, 1276
Workshops
A leaning process, 458p
1946, 1947 land tenure workshops, 463p
1948 land tenure workshop, 467p
1948 farm management workshop, 472p
World population trends, 237p
